

Federal financial institutions legislative and regulatory reporter – May 2022

June 29, 2022

When using a mobile device, please view this webpage in landscape mode.

The Reporter provides a monthly summary of Canadian federal legislative and regulatory developments of relevance to federally regulated financial institutions. It does not address Canadian provincial financial services legislative and regulatory developments, although this information is tracked by BLG and can be provided on request. In addition, purely technical and administrative changes (such as changes to reporting forms) are not covered.

Office of the Superintendent of Financial Institutions (OSFI)		
May 26, 2022	<p>Draft Guideline: Guideline B-15, Climate Risk Management.</p> <p>OSFI has released a drafted version of Guideline B-15: Climate Risk Management, proposing a framework to guide federally regulated financial institutions in their climate-related governance and risk management practices. OSFI welcomes comment to draft Guideline B-15 before August 19, 2022.</p>	Comment by August 19, 2022
May 20, 2022	Proposed Revisions to Guideline E-23 on Model Risk Management	Comment by June 30, 2022

	<p>In September 2017, OSFI issued <u>Guideline-E23: Enterprise-Wide Model Risk Management for Deposit-Taking Institutions</u>, which set out OSFI's expectations on the life cycle approach to managing the use of models by federally regulated deposit taking institutions (DTIs).</p> <p>OSFI plans to expand the scope of Guideline E-23 to address emerging risks and to clarify OSFI's expectations that all federally regulated financial institutions (FRFIs) and federally regulated pension plans (FRPPs) appropriately assess and manage model risks at the enterprise level. OSFI will take a balanced approach that is reflective of proportionality considerations for FRFIs and FRPPs based on the model risk management framework under which they operate. OSFI's risk-based approach will also recognize FRFIs' and FRPPs' desire to innovate and preserve agility in model development while maintaining the importance of appropriate model risk management.</p> <p>OSFI plans to launch a consultation on Guideline E-23 in March 2023, with final guidance planned for publication by the end of 2023 and target implementation by June 2024. At this point, OSFI is seeking input from stakeholders on the expanded scope of application and models along with any other element of the current Guideline E-23 where additional detail or greater clarity would be beneficial.</p>

May 16, 2022	<p>OSFI's expectations for CDOR Transition</p> <p>The OSFI supports the move towards more robust interest-rate benchmarks, including efforts to transition the Canadian financial system to primarily using the Canadian Overnight Repo Rate Average (CORRA) in place of the Canadian Dollar Offered Rate (CDOR). The confirmation of CDOR cessation dates begins a critical phase in the transition to alternative reference rates in Canada. As a result, OSFI expects FRFIs and FRPPs with transactions linked to CDOR will make every effort to ensure a seamless transition to new reference rates, prior to the respective cessation dates.</p>	
May 18, 2022	<p>Chief Actuary of Canada Seeks External Peer Review Panel for 31st Actuarial Report on the Canada Pension Plan</p> <p>The Office of the Chief Actuary (OCA) is commissioning an external peer review of its next (31) Actuarial Report on the Canada Pension Plan (CPP), expected to be released in December 2022.</p> <p>Application forms and the terms of reference are available and must be submitted before the end of the day on July 15, 2022. Previous CPP actuarial reports and independent peer reviews are also available.</p>	Submissions by July 15, 2022
