

## Achieve Partners' investment in FutureFit AI, an AI-powered workforce technology platform

Achieve Partners completed its strategic investment in FutureFit AI, a New York City and Toronto-based AI-powered workforce technology platform connecting individuals to careers, employers to talent, and workforce partners to integrated solutions.

FutureFit AI integrates real-time labour market data with personalized career pathways to drive measurable workforce outcomes. The platform has supported nearly 50,000 individuals in Connecticut alone, including 7,000 trained in high-demand industries with an 85 per cent placement rate. With established partnerships spanning U.S. states, Canadian provincial and federal programs, and European markets, FutureFit AI plans to use the investment to further deepen its collaborations with governments and industry organizations.

BLG represented Achieve Partners with a team led by Tasy Bacoli that included Neil Hazan, Matteo Grandillo, Stephen Roumeliotis and Sofia Prahalis (M&A/Private Equity); Joseph Takmizdian and Alessandro Cotugno (Tax); James Fu and Erin Minuk (Employment); Candice Hévin (Privacy, IT and AI); Gabriel St-Laurent (IP); and Mohit Sethi (Foreign Investment and Competition).
