

## Continuing Professional Development

Our clients expect us to be aware of changes affecting them and the practice of law. Our professionals pursue continuing professional development (CPD) as part of their commitment to excellence.

BLG U provides live and recorded accredited CPD to our professionals and clients. We offer more than 100 live and video on-demand sessions, including several accredited for the Ethics and Practice Management requirement in BC and the professionalism requirement in Ontario. New content is added regularly.

## Key Contact
