Education Law for Private and Independent Schools

As an adviser working within or with a private or independent school, you know that many of the laws applicable to publicly funded educational institutions don't apply to you, and yet, you face many of the same challenges, plus more. It is critical that you have a clear understanding of the laws that govern you and the best practices that should guide your actions.

Developed in lawyers representing private & independent schools, this comprehensive day will look at the usual school law issues from this different perspective, while also addressing those issues unique to private and independent schools.
