CPD Series: Modern Approaches for Today's Legal and Business Landscape

November 05, 2024
9:00 a.m. - 10:30 a.m. PT

Webinar
Connection details will be provided after registration.

BLG is committed to supporting you with your Continuing Professional Development (CPD) needs. We are pleased to offer ongoing virtual sessions through the year to help you fulfill your 12 hours of required CPD.

This 1.5-hour session will review real case studies that highlight current concepts and approaches you can leverage to enhance operational efficiency and legal outcomes within your organizations.

Our attendees will gain practical knowledge in these topics:

Session 1 | Leveraging Managed Services within Your Organization *(45 mins)*

- Nicole St-Louis and Marta Lewycky will discuss how to use managed services to optimize performance within your legal departments. They will define the concept of managed services and will provide guidance on how to assess whether a managed-services approach is right for your organization.

Session 2 | Unique Tech-Enabled Approaches to Contract Reviews, and the Intake & Tracking of Legal Work *(45 min)*

- Cherie Mah, Mary Ann Stallings and Emily Wesson will share case studies to illustrate how to manage high-volume contract reviews through collaboration. They will focus on synergies between business processes, use of technology and appropriate staffing.
- Mary Ann Stallings and Kyla Sandwith will showcase how you can use technology, likely already within your organization, to create a workflow for the intake and tracking of your legal portfolio of work.

If you have any questions for our presenters on any of the topics highlighted above, please submit them when you register for the session.

We hope you're able to join us!
