Transform Your Business for Success with BLG Beyond Consulting

Optimize your operations and deliver sustainable change for the better.

BLG Beyond Consulting focuses on delivering lasting improvements by helping you plan, prioritize and execute on transformation initiatives that deliver results. We anticipate and proactively address the risks that come with technology and process innovations so you can thrive through change.

Established to support General Counsel and in-house legal departments with changes impacting business operations, BLG Beyond Consulting has quickly expanded to address growing demand from other business functions and stakeholders.

Our multidisciplinary team has both industry and consulting expertise, which means we provide timely, relevant and practical advice based on real-world experience. We seek to understand the problem or opportunity through your eyes and partner with key stakeholders inside and outside of your organization to co-create solutions tailored specifically to your needs and culture.

Our Service Offerings

Experience Highlights

Management Consulting

Managed the Finance function transformation of a large Canadian law firm, including creation of a Centre of Excellence.
Facilitated strategic planning offsite for the leadership team of a provincial ministry.
Conducted an in-depth review of the intellectual property group of a leading law firm – diagnosing issues, defining opportunities and supporting the implementation of organizational effectiveness recommendations. This led to significantly improved productivity, retention, and morale.
Technology Advisory
Defined business requirements for ERP selection for a Canadian higher education institution – engaging broadly with business stakeholders through interviews and working sessions, and partnering with the client's IT group to lay the foundations for change.
Reviewed and recommended legal technology to improve operational efficiencies and vendor management.
People & Workplace Initiatives
Led the creation of the vision, design and implementation roadmap of a hybrid-working model for a large higher education institution, including HR, technology and facilities considerations, to enable a successful mix of remote and on-campus work.
Implemented the workplace of the future for a leading professional services firm, supporting the transition to "paperless" ways of working and an agile workplace. Managed business readiness and change management, as well as leading the national operations strategies to drive a heightened client and talent experience.
