Nuts and Bolts: AI in Education

October 16, 2024
12:00 p.m. - 1:00 p.m. ET

Webinar
Connection details will be provided after registration.

It's the beginning of a new school and academic year, and the rise of Generative AI is no longer a matter that education institutions can ignore.

Teachers are asking for it, students are using it, and it is both a subject of and enabler of research. Yet there are risks and emerging governance expectations to be considered, all at a time when resources are highly constrained. BLG's [National School Boards Practice](#) Co-Chair [John-Paul Alexandrowicz](#) will sit down with artificial intelligence author and certified AI governance professional [Simon Du Perron](#) and National [Privacy and Cyber Security](#) Co-Chair [Dan Michaluk](#) for a discussion of the key issues – including about Gen AI risks, the emerging expectations, and practical approaches to moving forward while staying safe.

We hope you can join us. Please respond by October 15.
