

COMMUNITY INVOLVEMENT

## National Music Centre

We have a 10-year partnership with the National Music Centre (NMC) located in Calgary. The NMC is regarded as a catalyst for discovery, innovation and renewal through music. It offers innovative programming aimed at a wide demographic from children to up-and-coming musicians. Activities include youth mentorship, school engagement, and a Masters in Residence program that provides opportunities for emerging artists.

BLG has a long history working with the NMC – members of the firm have supported the project both professionally and in a volunteer capacity for over 20 years. Our sponsorship supports local and national arts and culture initiatives in Calgary, and is consistent with our long-standing focus on children and youth.
