Connection details will be provided after registration.

Join us for an insightful fireside chat exploring lessons learned from the recent Ontario Information and Privacy Commissioner (IPC) PowerSchool incident report and how Ontario public sector institutions can strengthen their vendor risk management practices.

This session features Dan Michaluk (National Co-Leader, Privacy & Cybersecurity), Eric Boehm (Partner), and Shane Morganstein (Senior Associate) who will share practical guidance to help public sector leaders and privacy and IT professionals align with the IPC's new expectations across three key areas:

1. Pre-Contracting Due Diligence – How to use the procurement process to your advantage.
2. Contracting Negotiations – Building strong privacy protections into agreements.
3. Contract Administration – Ensuring compliance and resilience post-signature.

We look forward to having you join our discussion and invite your questions on these key topics.

Please respond by January 8. If you have any questions about this event, please email RSVPOttawa@blg.com.
