

It's crucial to have a skilled, connected legal team who will collaborate with you at every stage of your P3 project's contracts and contractual obligations, from the initial issuance of the procurement documents to the financial close.

We are uniquely positioned to advise on P3 contracts of any size and nature. No matter the project's location, sponsors or financiers, our team will collaborate with you to satisfy interests, create innovative strategies and ensure a timely close. Our extensive contacts within all levels of government have been instrumental in shaping and restructuring policy frameworks for the country's energy, water and hospital infrastructure.

As an industry leader, we have a wealth of experience in providing legal advice to range of clients on their P3 contract needs, including:

- developers
- financiers
- governments
- government agencies
- not-for-profit public owners

Our commitment to exceptional service has resulted in the frequent recognition of many of our legal professionals at home and abroad.

Experience

A design-build contractor in a \$150 million complex arbitration regarding the design and construction of an Alberta highway infrastructure project. The arbitration involves numerous design and construction claims, as well as a significant schedule impact claim.
