

EVENT

Demystifying the Evolving Digital Assets and Blockchain Space

February 06, 2018
4:00 p.m. - 5:30 p.m. ET

Borden Ladner Gervais LLP
Bay Adelaide Centre, East Tower 22 Adelaide Street West, Suite 3400
Toronto, ON, Canada M5H 4E3

Operating businesses, market participants, asset managers, trading platforms and investors need to understand the rapidly evolving world of digital assets, including cryptocurrencies and blockchain technology. The growing interest in this asset class and in the use of peer-to-peer networks is resulting in increased scrutiny by regulators globally, and participants need to better understand how securities regulations apply before embarking on ICO's, token sales, cryptocurrency fund offerings and blockchain-based businesses.

Please join our guests: Darren Franceschini, Eric Godwin and Viven Kalia of Satnak Labs and Blockchain Technologies Consulting, for a discussion on blockchain and cryptocurrencies.

This will be followed by discussions on:

- Coin and Token Offerings — Securities Law Implications
[Manoj Pundit](#), Borden Ladner Gervais LLP
- Risks Involving Cryptocurrency Investments
[Carol Derk](#) and [Julie Mansi](#), Borden Ladner Gervais LLP

If you are interested in attending this event, please email Lindsay Taylor at RSVPToronto@blg.com to register.
