ESG@BLG: Shaping the future together

We are committed to using our knowledge, skills, resources and platform to help address vital social issues and to shape a sustainable future. Our environmental, social and governance (ESG) approach involves all areas of our firm taking action to improve our ESG performance in order to live our core values and achieve our firm vision. As we learn more about ESG risks and opportunities, we are shaping a brighter future for our clients, employees, partners and communities.

Our ESG commitment covers four key areas

Our ESG journey

Take the next step on your organization's ESG journey with more confidence using the lessons learned on BLG's path: successes, timelines, tips and more.

Helping clients on their ESG journey

BLG was one of the first law firms in Canada to put ESG on the client agenda. Today, with ESG-related regulations on the horizon and a marked increase in disputes over false representation, clients rely on our ESG expertise in sustainable finance, corporate governance, climate change, human resources, Indigenous law, litigation, tax and more to ensure their future success.
