

Canada's Law Firm

As Canada's law firm, BLG provides high value advice to address our clients' business problems. We are going beyond legal to consult and advise in a digital world.

We have extensive experience acting in specialized and complex deals and disputes. With an emphasis on client service, we harness technology and innovation to improve efficiency and deliver value.

Fully bilingual across all practice areas, BLG excels under both the common and civil law systems in Canada. We operate in five offices in the largest city centres across Canada and our representative office in Beijing, and have a global reach through our international network.

Outside our walls, we contribute to communities across Canada through our national pro bono program, our national BLG Reads to Kids literacy program, and through supporting the charitable efforts of our members through fundraising and volunteer contributions.
