

Rio Tinto and Giampaolo Group enter into Matalco aluminium recycling joint venture

April 24, 2019

On July 21, 2023, Rio Tinto and Giampaolo Group, one of North America's largest fully-integrated metal management businesses, entered into an agreement to form a joint venture to manufacture and market recycled aluminium products. The transaction reflects the joint venture partners' shared commitment to meeting the increasing demand for low-carbon aluminium as a key material in the energy transition.

Under the terms of the agreement, Rio Tinto will acquire a 50% equity stake in Giampaolo Group's wholly-owned Matalco business for US\$700 million subject to usual closing adjustments.

Matalco is a leading producer of high-quality recycled aluminium billet and slab products. It operates six facilities in the United States and one in Canada, with the capacity to produce approximately 900,000 tonnes of recycled aluminium per annum.

Giampaolo Group subsidiary Triple M Metal will be responsible for the supply of recyclable feed to the joint venture with Matalco's leadership team continuing to manage its operations. Rio Tinto will be responsible for sales and marketing of Matalco products following a transition period after completion of the transaction.
