Andrew specializes in securing patent assets in various industries from clean-tech to medical devices. He provides opinions on patentability and advises clients on global patent portfolio management.

He has expertise in patents related to:

- material science
- chemistry
- clean-tech
- renewable energy
- carbon capture and sequestration
- oil & gas
- mining
- metallurgy
- medical devices

Andrew also has an extensive industrial design practice assisting clients with protecting the aesthetic features of their products.

Within BLG, Andrew is National Group Manager of our Intellectual Property Group.

He is a registered Canadian patent agent in our Ottawa office.

Experience

- Patent drafting for Fortune 500 companies to Government corporations.
- Canadian patent prosecution for several Fortune 500 companies and FT Europe 500 companies.
- Patent opinions for Fortune 500 companies to Government corporations.
- Managing patent prosecution in over 40 countries.
- Management of one of Canada's largest industrial design portfolios.
- Commissioned study of the feasibility of pyrometallurgical lithium extraction from a confidential compound for McGill University.
- Study on the prediction of porosity in aluminum casting using mathematical criteria functions for McGill University.
