April 28, 2020

This important issue is made all the more urgent by the confluence of economic and legal factors facing the industry today.

On April 28, 2020, BLG Calgary's legal team held a discussion on many topics, including:

1. What are an Operator's best remedies when Non-Operators fail to pay their share of expenses?
2. What recourse is available for Non-Operators where AFE funds or production revenue have dissipated?
3. What happens when an Operator and Non-Operator disagree about whether a well can be shut-in?
4. What is required to replace an Operator?

The presentation is available for download.
