Current Considerations for PE-Backed Companies Beyond MAC and Force Majeure Clauses

COVID-19 is continuing to disrupt business-as-usual around the world. Lenders and borrowers of all sizes are grappling with material issues both inside and outside the parameters of their credit agreements.

Please join BLG on Thursday, May 21, 2020 for a candid discussion that will address the current and future environment as it relates to:

- trends, concerns and issues from the perspectives of both the lenders and borrowers;
- relationship dynamics between lenders and borrowers beyond the paperwork; and
- predictions on where the market is going for PE-backed borrowers.

As Canada's Law Firm, BLG is a leader in assisting private equity firms and their portfolio companies in every stage in their investment lifecycle.
