DEALS AND SUITS

Canada's largest hospital project just reached financial close at $13.9 billion

On July 10, Trillium Health Partners and Infrastructure Ontario, in partnership with the Ontario government, finalized this landmark deal with ED+PCL Healthcare Partners for The Peter Gilgan Mississauga Hospital and Shah Family Hospital for Women and Children. This isn't just another healthcare project. It's one of the largest infrastructure initiatives in Canadian history, using a progressive public-private partnership model with completion targeted for 2033.

BLG is proud to have provided comprehensive legal support to Trillium Health Partners across construction, procurement, real estate, and governance—areas where navigating complex frameworks and structuring long-term success models are critical. Congratulations to all involved as construction officially begins on what will reshape Ontario's healthcare landscape. We look forward to continuing our work with Trillium Health Partners as this visionary project comes to life.

BLGs team included Nick Pasquino (Corporate), Rick Shaban (Construction and Infrastructure), Kasim Salim (Construction and Infrastructure), Brennan Carroll (Commercial Real Estate), Samantha Lo (Commercial Real Estate) and Sosina Tilahun (Commercial Real Estate).

BLG Team : Nick G. Pasquino, Richard H. Shaban, Kasim Salim, Brennan M. Carroll, Samantha Lo, Sosina Tilahun
