The transportation industry is constantly evolving as innovation drives new laws and regulations. Success depends on having a specialized legal team to help navigate the industry's longstanding and emerging issues, including the evolution of how goods and passengers move, autonomy and automation, and the growing gig and sharing economy.

As one of Canada's most experienced transportation teams, we have a unique understanding of the industry's past, present, and future.

BLG Talks Transportation is a new series of quarterly webinars in which we will discuss issues affecting the transportation industry.
